YELLOW-S-FREE BLAKEMORE

As a plant maker, a shipping berry, and a prolific yielder, Blakemore has not been bettered, and added to these good qualities is the fact that it will grow and yield a good crop under adverse soil and weather conditions. Where other varieties of early strawberries will grow and yield, the Blakemore will grow better, yield more, and be of better quality than the other varieties.

Blakemore had only one fault, and this has been removed by the Yellow-S-Free Strain. You need no longer worry about losing your Blakemore plantings due to Yellow-S. Our Yellow-S-Resistant Strain of Blakemore was secured through the United States Department of Agriculture in the spring of 1938 and during two growing seasons here in our nursery the plants of this new type Blakemore have not shown a single plant of the Yellow-S Disease.

Blakemore berries are bright red, with tough skin, firm flesh, and a high-spirited, tart flavor. In shape, slightly blunted at the point, conical, with broad shoulders. Its bright green cap curls upward when the fruit ripens, making it easy to pick and hull. Ripens extra early and bears enormous crops of large berries.

Due to its firm flesh and tough skin, Blakemore has proven a wonderful long distance shipper. It will not become soft during hot, moist weather and will stand rough handling without bleeding. Retains its bright red color long after picking. Plants are hardy, vigorous, and produce runners freely. Will thrive on the poorer soils and stand extreme weather conditions.

We have a large quantity of this type Blakemore for this year's distribution and urge every grower of the Blakemore variety to plant nothing but the New Yellow-S-Free Strain.

1000 First Class Plants

ROKELY'S OFFER YOU MILLIONS of the FINEST BERRY PLANTS Ever Grown!

WE CHALLENGE ALL COMPETITION, BOTH FOR HIGH QUALITY AND LOW PRICE! Rokely's plants are all grown on fertile, sandy soil that not only produces heavy, fibrous-rooted plants but allows these plants to be removed from the ground with the entire root system intact. Fifty-one years of experience is back of every plant Rokely's sell and assures you the best stock it is possible to produce.

In the face of greatly increased labor and other costs, Rokely's have actually reduced prices on many items this year. It has always been our policy to give our customers the benefit of every saving we can possibly make, and at the same time spare no necessary expense to make our stock the finest it is possible to grow. The result is this best and largest crop of plants we have ever grown, offered to you at real money-saving prices.

J. N. ROKELY
Founder

A. J. ROKELY
Owner and Manager

This catalog is our only salesman. When you buy from Rokely's you are paying no middleman's profit and no extra transportation and handling charges. Furthermore, you receive freshly dug stock, carefully handled and packed by experienced help, so that it is sure to reach you in the best of growing condition.

We look forward to again serving our old friends, many of whom have been with us since we issued our first catalog. To those who have not yet placed an order with us—we hope you will give our stock a trial this season. We know we can please you and save you money.

Early Cash Order Discounts

10% DISCOUNT on all Cash Orders received during January, 1940.

5% DISCOUNT on all Cash Orders received during February, 1940.

These cash discounts apply only to stock ordered at regular catalog list prices, and do not apply to bargain collections or special quotations by letter.

MICHIGAN STATE DEPARTMENT OF AGRICULTURE

Orchard and Nursery Inspection
Certificate of Nursery Inspection
No. 417

This is to certify that the nursery stock of J. N. Rokely & Son, Bridgman, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases.

This certificate to be void after September 15, 1940.

ELMER A. BEAMER,

Commissioner.

Bureau of Agricultural Industry,
C. A. BOYER,

In Charge of Orchard and
Nursery Inspection.

Lansing, Mich., Aug. 28, 1939.

Our Guarantee

We guarantee all nursery stock sold by us to be first-class, true-to-name, and free from injurious disease. We further guarantee safe arrival of your order by express or parcel post, and will replace free of charge any stock that does not reach you in good growing condition, provided we are notified within 5 days after receipt of shipment. We will also, upon receipt of proper proof, replace or refund the purchase price of any stock that proves untrue to description under which it is sold. However, it is mutually agreed between ourselves and purchaser that we are in no case to be held liable for more than the original purchase price of the stock.

Our stock is carefully handled and full of vitality and, under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace it at one-half the purchase price this fall. Replacement order with remittance must be in our hands not later than October 1, 1940.

THE WORLD'S MOST FAMOUS STRAWBERRY

ROKELY'S HEAVY YIELDING **PREMIER**

Grown for Plants Only on Rich Sandy Soil

BIG CROPS AND BIG PROFITS

This remarkable early variety has filled more crates, made more dollars and produced more genuine satisfaction for strawberry growers than any other variety yet introduced. A sure indication of its excellence is the fact that newer varieties must surpass it in order to become established. This grand berry is still ranking at the top of our list in plant sales. Here in Berrien County, Mich., the greatest berry-growing section in the United States, 75% of the entire strawberry acreage is planted to Premier.

DROUGHT AND FROST-PROOF

Early ripening, which assures highest prices, is only one of the many desirable qualities of Premier. It has a long fruiting season and from first to last every berry is big, bright red, and excellent both in quality and flavor. It never fails to produce its customary big crop and even when many other varieties are injured by late frost or drought, Premier will come through with flying colors. The plants are big, healthy and deep-rooted, leaves upright and spreading, providing protection from both sun and frost.

GROWN FOR PLANTS ONLY

Our Premier plants are all grown on specially prepared fertile sandy soil. The entire rows are dug up in filling orders and any weak, immature plants along the edges of the rows are discarded. Being grown on sandy soil the plants are easily removed with the entire root system intact. You are thus assured of receiving only first-class, thrifty, heavy-rooted Premier plants when you place your order with us.

BEST ROOTS HE EVER SAW

Leonard Pigman, of Proctorville, Ohio, writes: "I received my strawberry plants in fine shape and they had the best roots I ever saw. I am sending you another order and when in need of plants will certainly patronize you."

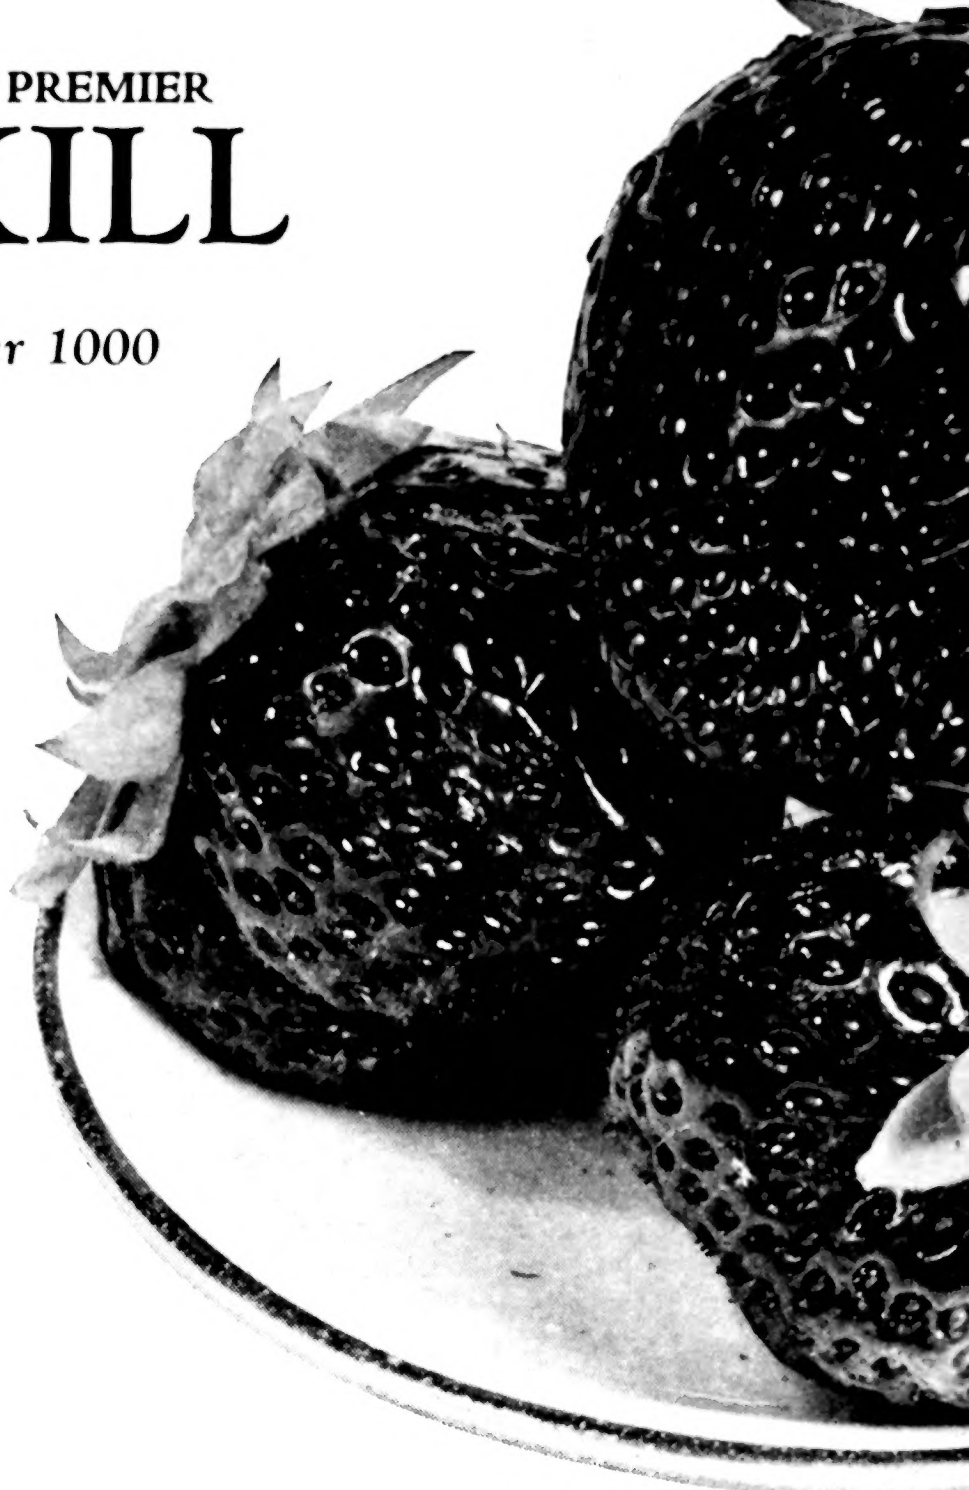

MIDSEASON OFFSPRING OF PREMIER
PLANT
 Rokely's
BIG CATSKILL

Now Only \$4.50 Per 1000

This giant, flashing red new berry has taken the strawberry world by storm. A cross of the Marshall and Premier, it has proven by far the best and heaviest yielding midseason strawberry ever introduced.

High Quality - Long Season

In quality Catskill berries are good, fully as good as Premier, and are very firm, making excellent shippers. The bright green cap, enormous size, flashing color and showiness make it sell well in any market. Although Catskill starts ripening about midseason, the crop is so large and borne over such a long period, that some growers are using it for both midseason and late. Catskill plants are large, long-rooted, vigorous growers, enabling them to mature the enormous crop of berries even under adverse conditions. Profit by the experience of others—grow Rokely's Catskill for profit!

Grand Champion
THE 40-DAY STRAWBERRY

This new long season berry commences to ripen with the Premier and still produces fancy berries with the Aroma. Extremely heavy yields of immense, bright red berries with enticing rich flavor and fancy appearance. Plants are large and sturdy with extra heavy healthy foliage which protects the blossoms from frost. Grand Champion is rapidly making a name for itself because of its heavy yield of extra fancy berries that top the market.

GENUINE

DORSETT

Big Yields -- Fancy Berries

REDUCED to \$4.25 per 1000

Dorsett has that delicious, rich, dessert flavor that places it above all others excepting Fairfax, making it a prime favorite for home gardens. Berries are bright, snappy red, large and perfectly formed, ripen evenly and are firm throughout. They stay bright and firm several days after picked. Dorsett is an early strawberry that produces enormous loads of perfect fruit. Plants are hardy and thrifty growers that make heavy picking rows. Will stand up and produce under both very dry and extremely wet conditions. Yields of 10,000 to 12,000 quarts per acre are often reported—you can do as well !

ROKELY'S FANCY

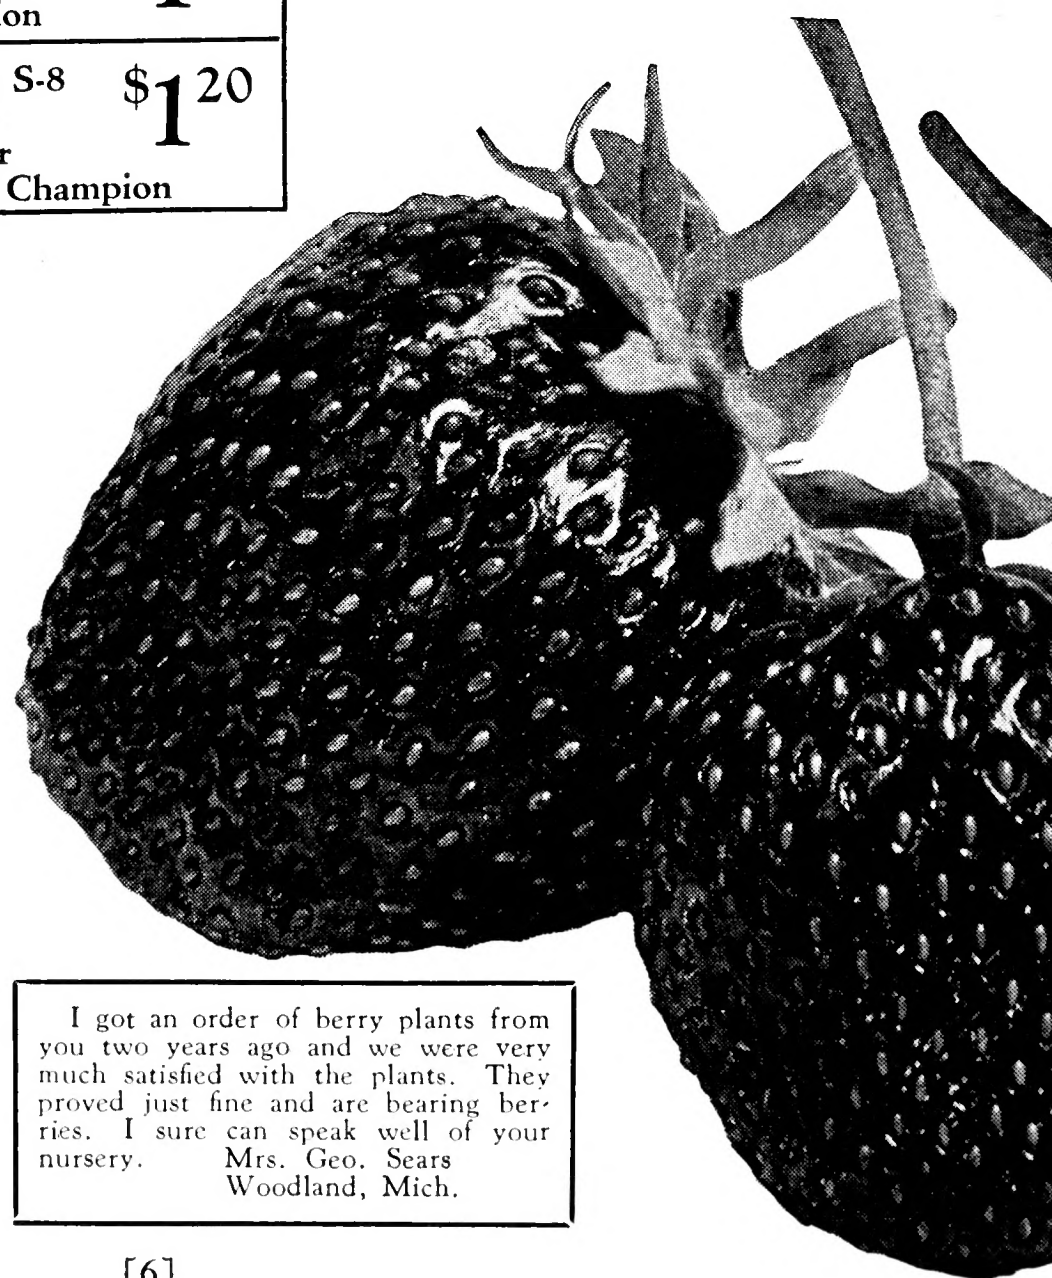

FAIRFAX

King of Quality

ONLY \$4.75 per 1000

"The very top of the list for quality" that's what everyone says who has tried this wonderful dessert strawberry. Ripening early, Fairfax berries are larger than Premier and are a deep, full red. Big, round, juicy fruit with a rich, distinctive strawberry flavor equalled by no other variety. Fairfax is enormously productive and very firm. Plants are big, long-rooted fellows, exceptionally free from disease and vigorous in growth.

Old Favorite DUNLAP

\$300
Per
1000

If you love shortcake, you will surely appreciate one made with Dunlap. Probably the oldest strawberry grown but still one of our best sellers, proving that it is one of the best all-purpose berries ever offered. It produces wonderfully large crops of beautiful, crimson-red berries with a rich, distinctive flavor that makes them favorites for home use. Dunlap makes a profuse plant growth, and is so healthy and hardy that it does well in all sections of the country. The plants are medium in size, hardy, long-rooted, very prolific, and will hold their own under most any rough and tumble methods of cultivation.

ROKELY'S GIANT MASTODON EVERBEARING

The most widely grown everbearing Strawberry—planted all over America. For many years now this fine variety has proven its worth. It will start bearing 90 days after planting and provide fresh strawberries all summer and fall. Our strain produces extra large berries of good flavor and bright red color. Planted this spring, Mastodon will bear loads of big, luscious berries this summer and fall. Next year they will bear spring, summer and fall. Large strong plants enable this variety to outbear and outgrow other less vigorous kinds.

Our Giant Mastodon plants are all grown on a special water-bottom, fertile, sand soil that produces those long, fibrous, white-rooted and big-crowned plants so much desired by the planters. Plant Rokely's Mastodon at these new low prices!

Gem is rapidly taking first place among all fall-bearing strawberries and is equalling many standard, or June-bearing, varieties in the early summer yield. The plants are healthy, hardy, drought-resistant, easily grown, and productive. Gem berries are all large, bright sparkling red, ripen evenly, and have wonderful eating and wonderful marketing qualities. Gem will commence bearing in 90 days after planting and continue until severe freezing weather, giving you fresh strawberries this summer and fall. Next year they will bear spring, summer and fall. A few Rokely's Gem in your garden will give you quantities of berries for table use and a commercial planting will bring large profits the same summer.

The New Honey-Sweet Everbearer

This most delicious new everbearer deserves all the praise given it. Wayzata is supreme among the everbearers for home use. The berries are extremely large and uniform; red to the heart, very firm, and possess the richest and sweetest flavor of any berry we have ever tasted. Wayzata plants are large in size and often have ten or more crowns—throwing out many fruit stems, which is the secret of their heavy-yielding ability. However, Wayzata makes very few runner plants, which, together with the active demand, accounts for the higher price for plants of this variety. **Supply limited—order early!**

UNUSUAL FRUITS

ICEBERG White Blackberry

A fruit of real value. Mix Icebergs with jet black berries for attractively different and delicious desserts. Berries are large as Alfred or Eldorado, creamy white in color, with very few seeds and a sweet, juicy, delicious flavor. Every garden should have at least a few bushes of this attractive berry.

Price: 1-yr. No. 1 plants, each 15c; 6 for 75c; 12 for \$1.25; 25 for \$2.00.

Golden Queen Yellow Raspberry

A beautiful golden yellow Raspberry. Fruit is large, quality first class, very productive. Makes a wonderful showing when mixed with red and black kinds for table use. Flavor rich, sugary-sweet and luscious. Canes are hardy, upright growing, and almost thorn-free.

Price: 1-yr. No. 1 plants, each 20c; 6 for 90c; 12 for \$1.50; 25 for \$2.50; 50 for \$4.50; 100 for \$6.95.

HANSEN'S BUSH CHERRY

Ornamental Shrub Valuable Fruit

Shapely, ornamental shrub, with long pointed gray-green leaves, silvery beneath. Covered with snow-white flowers in spring. Cherries are in large clusters easy to pick. The fruit is large, sweet, shaped like a plum and as delicious as sweet cherries to eat out of hand. Makes excellent jelly, jam and juice. The bushes reach a height of four to five feet and are perfectly hardy everywhere. Produce an enormous crop in your garden or along the edge of the yard. You will find them most beautiful and enjoyable.

Price: 1½- to 2-ft. bushes, each 35c; 3 for 90c; 10 for \$2.00; 25 for \$4.00.

TREE Strawberry

This highly interesting novelty plant grows into bushes 18 to 24 inches high. Bushes are covered with bright shining red berries in the shape of strawberries. An immense yielder like a raspberry. Makes delicious jelly and jams. Have something different in your garden to show your friends.

Price: 6 for 60c; 12 for \$1.00; 25 for \$1.75; 100 for \$6.00.

CUMBERLAND

THE BUSINESS BLACKCAP

100 HEAVY-ROOTED
1-YEAR PLANTS \$2.25

Cumberland berries are the aristocrats of the blackcap family and without question the best all-purpose black raspberry you can grow. Uniformly large and brilliant purplish black in color, they grow in big, attractive clusters. Easy to pick and easy to sell, for their beauty and luscious flavor attract buyers. Cumberland has every quality you want. A famous canner; superb for the table. Stands up for long distance shipping. A real money maker. Ripens medium late, following Logan and making a fine fruiting team with this popular variety.

SODUS *New Early Purplecap*

25 First-Class Plants, \$1.00

The most promising Purple Raspberry so far. The berries are much larger than any blackcap or red raspberry, firm and attractive, and do not crumble. Resemble red raspberries in shape and appearance, but grow like blackcaps. Fruit is dark reddish purple, very beautiful and appetizing. Much superior to the Columbian which was one of the best. Plants are vigorous, hardy and very productive, and so far have shown no signs of disease. Sodus is the result of a cross between Dundee black raspberry and Newburgh red raspberry. You will like its unique flavor. Try it!

Prices: 1-yr. No. 1 plants.

LATHAM

WORLD'S GREATEST RED

By sheer pre-eminent merit Latham has become the most popular Red Raspberry in the United States today. Popular in the home garden because it is easy to grow and sure to bear. Popular with berry growers because it makes them money.

Latham berries are mammoth, bright red beauties, uniform in size and shape, and present a delightful picture. Supreme in quality, the berries will cling to the bushes several days after ripening and never crumble. Sells at premium prices on all markets. Latham is a strong, sturdy grower. Absolutely hardy and thrives on every kind of soil, producing bumper crops of fine berries regularly. The canes grow large, straight and tall, and are literally loaded with berries which mature perfectly over an unusually long fruiting season.

CHIEF

Early Red

An established leading early Red Raspberry. Chief bears enormous crops of large snappy red berries ten days before Latham commences to ripen and continues well into the Latham season. Berries are large, excellent quality with delicious sweet flavor. Splendid keepers and shippers. A sure and heavy cropper every year.

ST. REGIS

Everbearing Red

St. Regis is the best known fall-bearing Red Raspberry. It ripens extra early and produces a big crop during the regular raspberry season, then continues to bear throughout the summer and fall months. Will commence bearing in September after planting. Berries are medium to large in size and a brilliant crimson color. Flavor is rich and sweet, with good keeping qualities, making it a splendid shipper.

Indian Summer

NEW EVERBEARING RED

The earliest to ripen in the spring, again bearing another crop of berries in the late summer and fall. Outclasses all other everbearing raspberries in appearance, flavor, and size. Fine, large, delicious, medium red berries borne on hardy, vigorous bushes of medium height. Indian Summer ranks with the best for its regular summer crop and produces more, and better quality berries in the fall than any other Everbearer. We highly recommend Indian Summer for commercial plantings or home gardens.

PRICES OF INDIAN SUMMER PLANTS AT BOTTOM OF THIS PAGE.

MARCY

Largest Late Red

Actual tests show that Marcy is the largest of all the leading Red Raspberry varieties. Berries are long, conic, and flesh moderately firm and thick, with only a small cavity. Color is medium red, bright if picked promptly, darker when dead ripe. Flavor mild. Plants are tall, sturdy, vigorous, and hardy.

Prices: 1-yr. No. 1 plants.

Indian Summer

Elmer H. Hussey, of Milan, Kansas, writes: "Your reputation for fair dealing is well known to me through my father, the late J. E. Hussey, of Conway Springs. As I will be in the market for some plants in the spring I would like to have your price list."

TAYLOR

Best New Late Red

A newcomer, originated by the New York Experiment Station where it was reported as the best late variety on trial. Berries are very large and the size holds up well throughout a long season. The color is a bright, attractive red, shape long, conic. Firm, free from crumbling, have small cavity, and are uniform in size. The plants are tall, vigorous, hardy, and produce heavy crops. Ripening season about with Latham.

Taylor is recommended as being very promising by growers who have tested it. We believe it to be a really fine new variety and are sure you will make no mistake in planting it now.

ELDORADO

KING OF COMMERCIAL
BLACKBERRIES

100 PLANTS Only \$1.25

The very finest commercial blackberry on the market. Eldorado berries are large as your thumb, jet-black, borne in large clusters and ripen well together. They are sweet and melting with that delicious aroma and flavor which can be found only in a wild blackberry. The berries are very firm and will remain in good condition for four to six days after picking. They will also retain their rich glossy black color until consumed, never turning red like the ordinary blackberry. No hard core, making them the choice of both canner and housewife.

The bushes are free from disease and immune to orange rust. The canes are vigorous and their yield of fruit is enormous. We have never known it to winter-kill or fail to produce an exceptionally fine crop of fruit.

Rokely's Eldorado plants are the healthiest, hardiest, and heaviest yielding strain on the market. Plant the best, they cost no more.

ALFRED

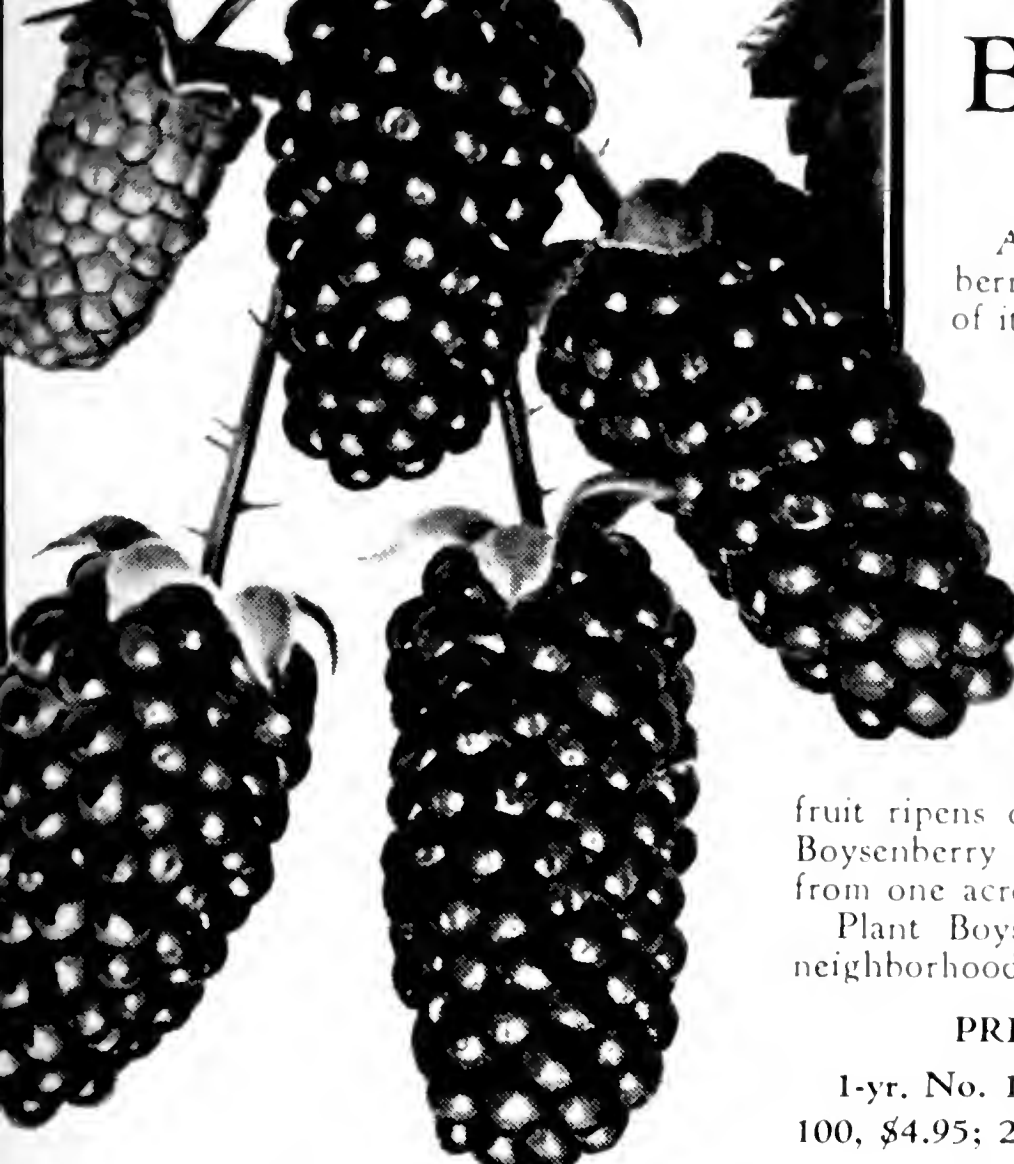

The Coreless Early Blackberry
25 PLANTS 45c

Alfred is a big producer of large, jet black, plump berries, many of them 1½ to 2 inches long. Practically free from seeds, coreless, sweet and juicy.

Alfred ripens a week to ten days earlier than Eldorado, producing a heavy crop of fruit. A healthy, vigorous grower and bears nearly a full crop the year after planting. Absolutely hardy and will withstand temperatures of 30 degrees below zero. Favorite early market blackberry and superb for serving fresh, canned, or in pies.

BOYSENBERRY

THE BERRY SUPREME

A cross of the blackberry, raspberry and loganberry, Boysenberry is far more vigorous than any of its parents. Huge, plump, juicy, delicious berries, 1½ to 2 inches long, are borne in profusion. If you could taste them you would agree that in flavor they stand supreme. Whether eaten fresh or with cream, or canned for sauce, jam or preserves, or in pies, it is superior in every way to any other berry grown. Color dark wine-red. Boysenberry is almost seedless; is firm and therefore a good shipping berry. Produced in large clusters on long stems that stand away from the canes.

The plant is a tremendous, vigorous grower, and every cane is simply loaded with fruit. The fruit ripens over a very long period—almost two months. Boysenberry holds the record of almost six tons of berries from one acre, selling for \$1,760.00.

Plant Boysenberry this spring and be the first in your neighborhood to have this wonderful new delicious fruit.

PRICES OF BOYSENBERRY PLANTS

LUCRETIA DEWBERRY

THE CREEPING BLACKBERRY

Lucretia dewberries are even larger than blackberries, lustrous black, coreless, sweet, and juicy. Ripen two weeks earlier than blackberries. Fine for fresh desserts, pies, jam, juices, etc. Very productive. Vines are thrifty and free from rust and other diseases. Best results are secured on the higher, sandier soils, their natural home. Will grow and produce wonderful crops on soils too light for other fruits.

PRICES: Heavy 1-yr. plants, 25 for 70c; 50 for \$1.00; 100 for \$1.85; 250 for \$3.80; 500 for \$7.35; 1000 for \$14.45. 2-yr. transplants, 12 for 75c; 25 for \$1.20; 50 for \$1.95; 100 for \$3.50.

Rokely's Mary Washington Rust - Resisting ASPARAGUS

Only \$4.95 per 1000

As an extra early money crop nothing can compare with asparagus. Growers are netting from \$500.00 to \$1,000.00 per acre from this early spring, easy-to-grow crop. There is always a good demand for fresh asparagus and a welcome early spring income can be obtained from asparagus growing on a commercial scale.

We offer you Mary Washington, which is the best of the Washington strains developed by the United States Department of Agriculture in their search for a rust-resistant variety. Our plants are grown from certified strain seed, on a rich sandy soil that produces long, white roots and heavy crowns. Don't buy ordinary asparagus when you can get Mary Washington for the same money.

Prices of Asparagus Roots: 1-yr. No. 1, 25, 30c; 50, 50c; 100, 85c; 250, \$1.90; 500, \$2.60; 1000, \$4.95. 2-yr. No. 1, 25, 50c; 50, 80c; 100, \$1.35; 250, \$3.00; 500, \$4.15; 1000, \$7.95.

Victoria Rhubarb

Mammoth Victoria rhubarb is famed for size, flavor, tenderness and rich color. Immensely productive. Delicious for sauce, pie, etc. Earliest spring fruit.

Prices: 1 yr., 6 for 35c; 12 for 50c; 25 for 90c; 50 for \$1.65; 100 for \$2.90; 250 for \$5.75; 1000 for \$19.00. 2 yr., 6 for 70c; 12 for \$1.00.

Please send price on approximately 15,000 Asparagus plants, 1-year-old. I bought 5,000 plants from you last year and was well satisfied with them.

ROKELY'S GIANT Red Ruby Rhubarb

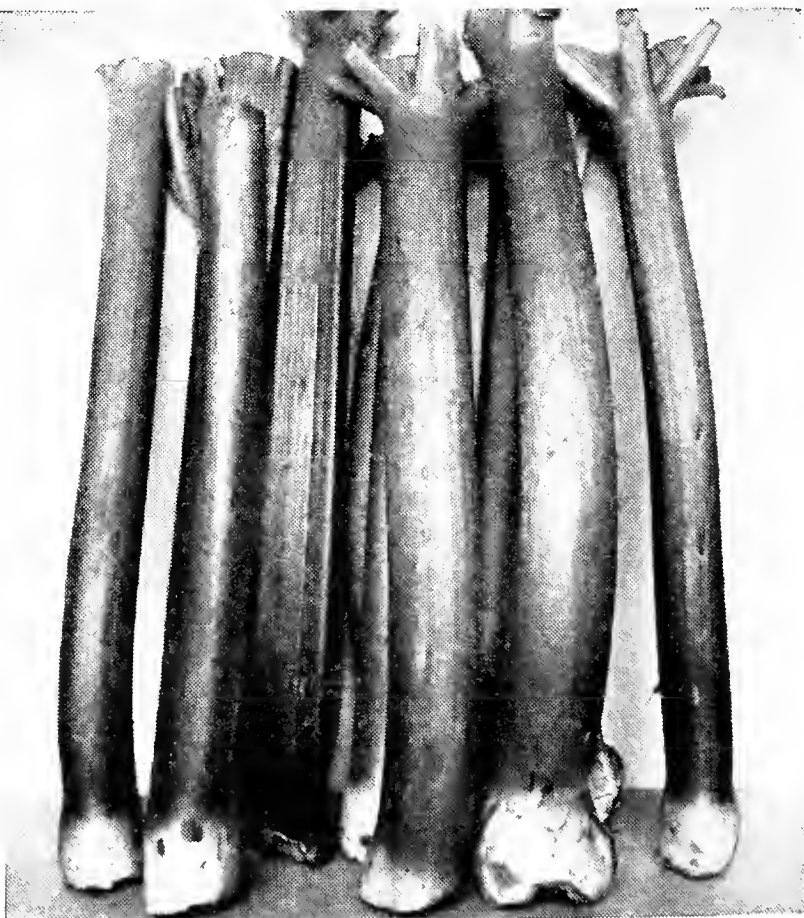

STALKS RED TO THE CENTER

This new Red Rhubarb, introduced from Canada, is the best of all. The stalks are unusually large and intensely red as the name implies—even the inside of the stalk is red. Rhubarb sauce made from Ruby is as red as strawberry sauce. Stalks are very tender and juicy—not tough or stringy as most large stalks are and the skin is so tender it can be cooked with the stalk. Ruby yields heavily over a long season and one planting will last for years. Ruby is a real money-maker on the market because it sells on sight at a premium over common Rhubarb.

Ours are all strong division roots ready to produce quickly.

CULTIVATED BLUEBERRIES

These giant, cultivated blueberries are the result of scientific breeding by state experiment stations and are far superior to the ordinary wild blueberries. Bushes grow to a height of 6 to 8 feet and bear enormous loads of large, luscious berries of highest quality and most delicious sweet flavor. Two to six bushes in your garden will furnish your family plenty of berries for fresh pies and canning. Highly profitable when grown for market as these large, fresh blueberries will bring 50c to 75c per quart on the wholesale market.

Ripen from early July to late August. Once planted, bushes last a lifetime and require no unusual care.

Prices: All varieties, 2-year No. 1 transplanted bushes.

2 for	\$1.35	12 for ...	\$ 5.95
4 for	2.40	25 for ...	11.95
6 for	3.50	100 for ...	44.00

BLUEBERRY CULTURE

In order to thrive, Blueberries require an acid soil with abundant moisture. If your soil is not naturally acid, it may be made so by mixing in acid peat or Sodus Acid Humus (see below). Mix from 8 to 10 pounds of Sodus Acid Humus with the soil around the roots of each plant, when planting, and furnish plenty of moisture. Otherwise no special care is required.

ADAMS. Early, large sweet berries. Upright bush.

JUNE. Early. Bush is upright in growth. Berries large and of best quality

HARDING. Longest season of all. Begins to ripen early midseason and is the last one to ripen berries. Spreading bush. High quality, sweet berries.

RANCOCAS. Ripens week before Rubel. Upright bushes but heavily branched. Large, bright blue berries.

RUBEL. Hardy, late, upright bush. Most widely planted of all. Enormous producer of medium to large berries of good quality.

SOILMASTER

Soilmaster is a decomposed, concentrated leaf-mold and decayed vegetation. This is the humus to use on lawns, around shrubs and in your garden. Holds seven times its weight in moisture, and is a good fertilizer. Rejuvenates gardens, lawns, shrubbery, and trees; is a natural plant food, a natural soil builder; far superior to stable manure, has the same fertilizing value, is clean, odorless and does not burn; and can be applied any time and anywhere. Is ideal for the farm home, garden or suburban home. Requires less water after application than other fertilizer as it holds moisture for an indefinite period. Makes the soil mellow and prevents baking. Soilmaster goes farther, lasts longer and is more economical; two-bushel bag, which is approximately 100 pounds, is enough for 100 square feet of lawn or 8 good sized shrubs or ornamentals. You are assured of a three years' growth in two years' time by using this humus.

SODUS ACID HUMUS

Sodus Humus will hold moisture and has the same fertilizer value as Soilmaster—the only difference between the two is that one is sour and the other sweet. We recommend this Humus for Evergreens, Rhododendrons and Blueberries, or any shrub or ornamental that requires an acid soil.

PRICE OF SOILMASTER AND SODUS ACID HUMUS

Specify which you want when ordering.

Gentlemen:

Kent, Ohio

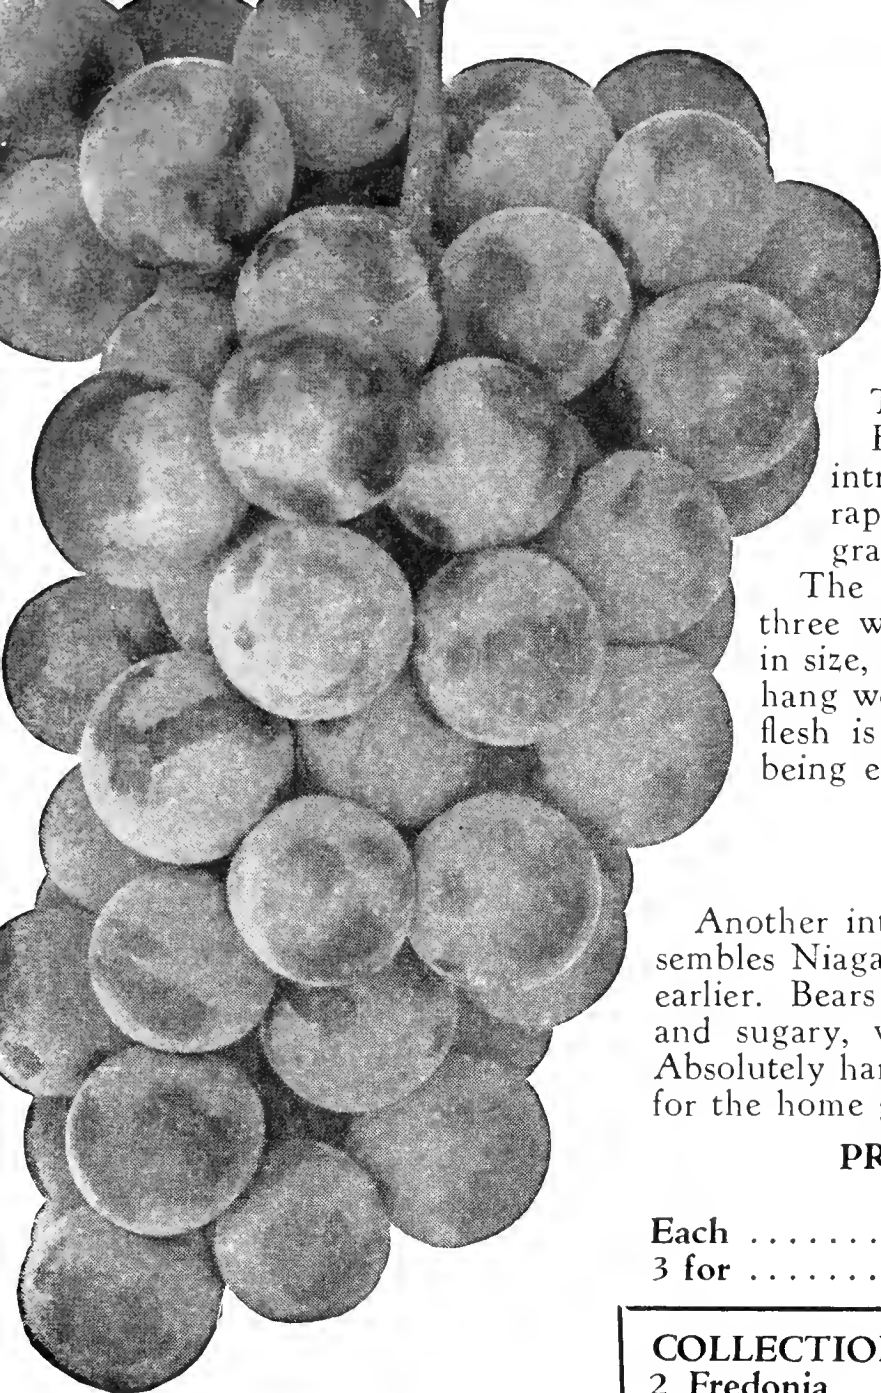

As a result of our many years spent in the care of thousands of fine trees, we know that lawn trees must be supplied with artificial food—more especially with humus.

After vigorous tests and use extending over a period of four years, we are glad to say that Soilmaster has proven itself to be an ideal form of humus. Results following its use have been uniformly satisfactory and at times quite amazing.

We, therefore, take pleasure in recommending the use of Soilmaster. Inasmuch as it is taken from the natural soil deposit, there seems to be no danger of overfeeding or burning in its generous use.

Sincerely yours,

The Davey Tree Expert Company,
Signed, M. L. Davey, President.

Fredonia

The Two Outstanding NEW GRAPES

FREDONIA

THREE WEEKS EARLIER THAN CONCORD

Fredonia is the earliest good black grape. A recent introduction of the New York Experiment Station, it is rapidly replacing the older standard varieties of early grapes.

The vine is vigorous and productive and ripens its fruit three weeks earlier than Concord. The clusters are medium in size, cylindrical and very compact; berries large, round, and hang well to the bunch. The skin is thick and tough, and the flesh is juicy, solid, but tender. The quality is extra good, being equal to or better than Concord.

PORTLAND

NEW EARLY WHITE

Another introduction of the New York Experiment Station. Resembles Niagara in shape of berry and bunch but ripens three weeks earlier. Bears young, heavily, and regularly. The fruit is large, rich and sugary, with a spicy, luscious flavor you certainly will like. Absolutely hardy. A real find for the commercial grower and a treat for the home gardener.

CONCORD

(Black)

America's leading wine and table Grape. The only variety that is supreme for every purpose. Grows on all soils, producing enormous crops of highest quality fruit. Highly resistant to drought, insects and diseases. Very hardy. Produces compact bunches 5 to 7 inches long. Berries are large, bluish black, covered with attractive bloom. Highest keeping and shipping quality. Juice is rich wine-purple and very delicious either fresh or canned.

MOORE'S EARLY

(Black)

A heavy-producing early variety. Profitable for commercial growing because it gets the early season high prices. Similar to Concord in appearance and quality, ripening about two weeks earlier. Has a peculiarly sweet flavor that makes it an excellent table Grape.

NIAGARA

(White)

The leading commercial white Grape. More productive than other standard white varieties. The quality of Niagara compares with Concord, being superb for home use or shipping. Bunches are large and compact, berries large and of attractive appearance. In great demand as a table and wine Grape.

CACO

(Red)

We consider this the most beautiful and the best hardy red Grape. The fruit is wine-red in color, very large, rich and sugary, with a delicious melting flavor. Caco is hardy, a vigorous grower, and bears young, heavily and regularly. Leading horticulturists and experiment stations claim it has no equal as a variety for home use. Always in demand on all markets at extra fancy prices.

Golden Jubilee

GOLDEN JUBILEE

This enormous golden yellow Peach with red blush was introduced in New Jersey, but has been thoroughly tested in northern states and found as hardy as Elberta. It ripens three weeks earlier than Elberta and is of better quality. The skin is yellow blushed with red; flesh yellow, juicy, tender and sweet. Freestone. One of the best shipping varieties on the market.

ELBERTA

The standard market Peach of the country. A valuable large Peach of good quality; yellow with red cheek, juicy and highly flavored. Flesh yellow; freestone. Ripens midseason.

CHAMPION

The very best early white-fleshed freestone. Rich and juicy. Highly colored cheek. A favorite eating Peach. Ripens in August.

HARDY NORTHERN-GROWN PEACH TREES

HALE-HAVEN

Hale-Haven has the large size of the J. H. Hale along with the productiveness and high quality of the South Haven. It is a fancy freestone variety that ripens ten days earlier than Elberta. In color a deep snappy yellow, with a reddish tinted cheek. Flesh is yellow, rich, firm, and juicy. Hale-Haven is very hardy, a remarkably fast grower, and an exceptionally heavy producer. This marvelous peach looks better, keeps better and even tastes better than any other you have ever grown.

SOUTH HAVEN

Exceptionally fine flavor. Flesh yellow and sweet. Its showy exterior combined with its earliness makes it a real money-maker. Ripens ten to fourteen days before Elberta. Trees are hardy, quick growing, and bear heavily and young. Freestone.

J. H. HALE

Fruit extra large. Ripens just before Elberta and averages a third larger in size. Color beautiful golden yellow with deep carmine blush. Flesh yellow, sweet and melting. Fancy canning Peach. Freestone.

ROCHESTER

Early, orange-yellow with blazing red cheek and markings. Delicious flavor. Excellent canner and shipper. Freestone, very hardy, enormous cropper.

ROKELY'S HARDY APPLE NEW LOW PRICE

Dark Red Stayman Winesap

Dolgo Crab

Dark
Red
Jonathan

BALDWIN. Leading commercial winter apple for market or storage. Large, glossy red fruit with very firm flesh. Good flavor, good cooker, good keeper.

CORTLAND. An improved McIntosh, retaining all the good features of that outstanding variety, but ripening two weeks later, which insures a late keeping date. Large, beautiful dark red striped with carmine and yellow. Flesh fine grained, crisp, juicy, white and firm. Bears very young.

DELICIOUS, DARK RED. Grand Champion of winter apples. Red with pin dots of yellow. Fine grained, crisp, juicy, with mild, pleasant flavor. Ranks first both for commercial and home orchards. Tree hardy, vigorous grower, producing enormous annual yields.

NEW DOLGO CRAB. Brightest, most dazzling red color of any apple. Draws crowds of admirers at fair exhibits! Good to eat fresh. A few Dolgo make lots of bright red jelly, as they jell the quickest of any apple. Tree hardy, vigorous, productive, young bearer, and splendid ornamental shade tree.
PRICE, 2-yr., 3-5 ft. trees: Each 45c; 3 for \$1.25; 10 for \$3.50.

GRIMES GOLDEN. Winter. Large, golden yellow skin, sprinkled with gray dots. Flesh crisp, mild, tender, juicy, and very delicious. Tree hardy, vigorous and productive.

HYSLOP CRAB. Leading Crab for market. Large, round, with yellow skin and red coloring, overspread with purple bloom. Flesh yellow, crisp, juicy.

JONATHAN, DARK RED. Grand, good winter apple. Bright, solid red. Flesh white, firm, fine, crisp and tender—a splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Excellent keeping qualities.

NORTHERN GROWN TREES

20c EACH ^{IN 100} _{LOTS}

McINTOSH DARK RED. One of the most important fall and early winter varieties. An exceptionally fine eating apple, of good size, bright red color, and a delicious aromatic flavor. Hardy trees which start bearing heavily while still young, and thrive on poor soils.

NORTHERN SPY. Extra large, greenish yellow winter apple with red markings. Highly flavored, excellent for eating, cooking and storage. Tree hardy and productive.

ROME BEAUTY. Large, uniformly red winter apple. Fine for eating or cooking. Is thick skinned, stands handling well, and is a good keeper. Appearance and size are its valuable points. Bears young.

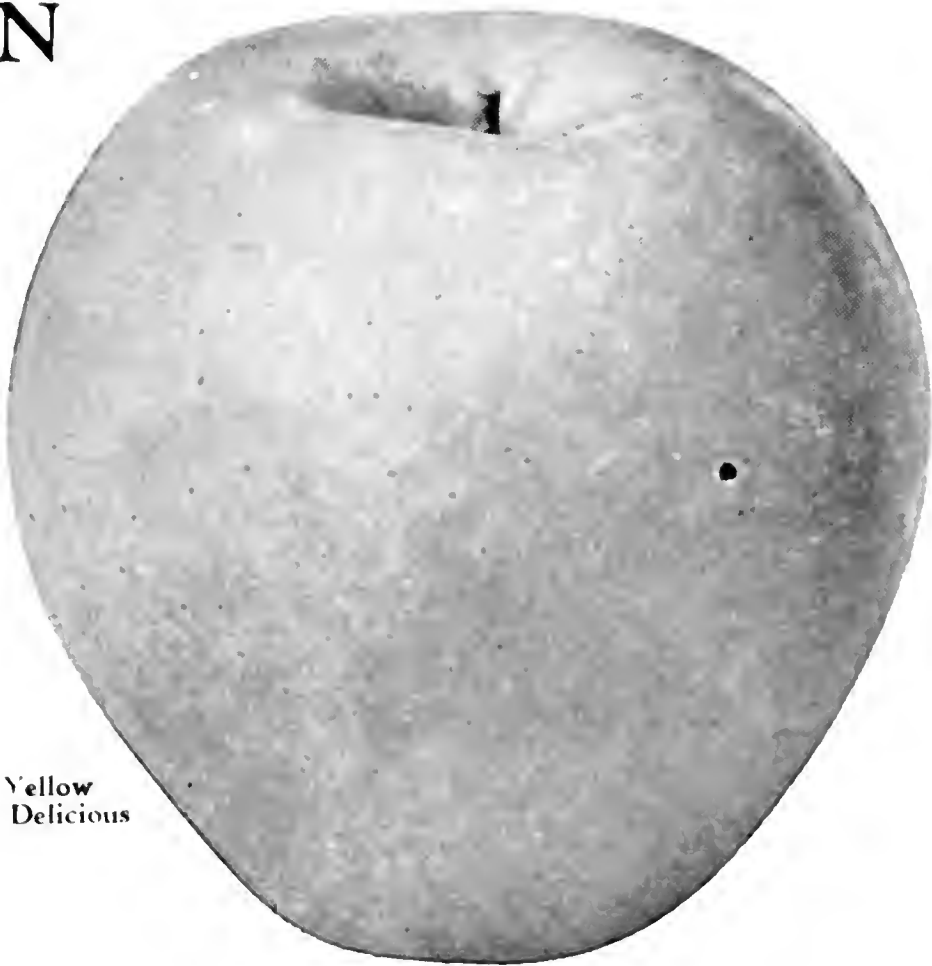

STAYMAN WINESAP DARK RED. Late fall apple with rich enticing flavor. White, juicy flesh; excellent for eating or market. Good keeper and heavy producer. Succeeds everywhere.

RED JUNE. Earliest ripening apple known. A handsome red apple. Flesh sub-acid, pleasant to eat out-of-hand. Very hardy, strong grower and very productive. Extremely early bearer. Ripens July 1st.

WEALTHY. The most dependable and widely planted fall apple. Large, round, bright red striped yellow. Flesh white, tender and sub-acid. Hardy and a free grower. A valuable market sort.

YELLOW TRANSPARENT. No orchard should be without a few of these delicious golden yellow apples. Good to eat long before other varieties are ready. Fruit large yellow with crisp meat and delicious flavor. Makes fine sauce or pies. Covers long fruiting season. Trees vigorous and very productive.

YELLOW DELICIOUS. Acclaimed by many as the best flavored apple in the world. Not so large as the Red Delicious, but has the same distinctive shape and an added deliciousness in flavor. Crisp, white, juicy flesh; firm skin; good shipper and storage sort. Hardy, bears young, and is a regular and heavy bearer.

Yellow
Delicious

Another New One! 5-IN-1 Apple Trees

You probably have oftentimes wished for an apple tree that would bear several kinds of apples. Our 5-IN-1 Apple Tree is just what you are looking for. These trees look and grow just like any other apple but will produce five different kinds of apples the same season—

Yellow Delicious Dark Red Delicious
Yellow Transparent Rome Beauty
Stayman Winesap

Order at least one of these new, different apple trees and have something different to show your friends. Supply limited—better order early!

NEW-EARLY-ALL RED BEACON

At last an early, high quality, all-red fall apple to take the place of the old Duchess! The new Beacon is a fall apple ripening with, or a few days later than, Duchess, and will keep for a month after harvest even without cold storage facilities. It is a high colored, all red variety—much better eating than Duchess and is an excellent cooking apple. The tree is vigorous, productive, very hardy, and bears young.

The early season, uniform size and shape, high color, and quality, together with the keeping quality so different from other early apples, makes Beacon the outstanding early apple for home or market. Beacon apples readily bring \$2.00 per bushel when Duchess are selling at 75c. Get started with this valuable new apple this season.

BRADSHAW. A splendid early. Large, dark violet-red. Flesh, yellow, juicy, good. Fine for canning or market. Ripens in August.

BURBANK. Most profitable market variety. Fruit large, oval, with reddish purple skin. Heavy yielder, hardy and bears young. Flavor excellent. Ripens in August.

GERMAN PRUNE. Old favorite. Fruit is long, oval, purple with a thick blue bloom. Flesh is firm, sweet and pleasant. Highly esteemed for canning and drying. September.

YELLOW EGG. Best and most popular yellow plum. Very hardy; trees grow rapidly, and produce abundantly even when very young. Fruit is attractive, large, and rich yellow in color. It is a great canner. Ripens in August.

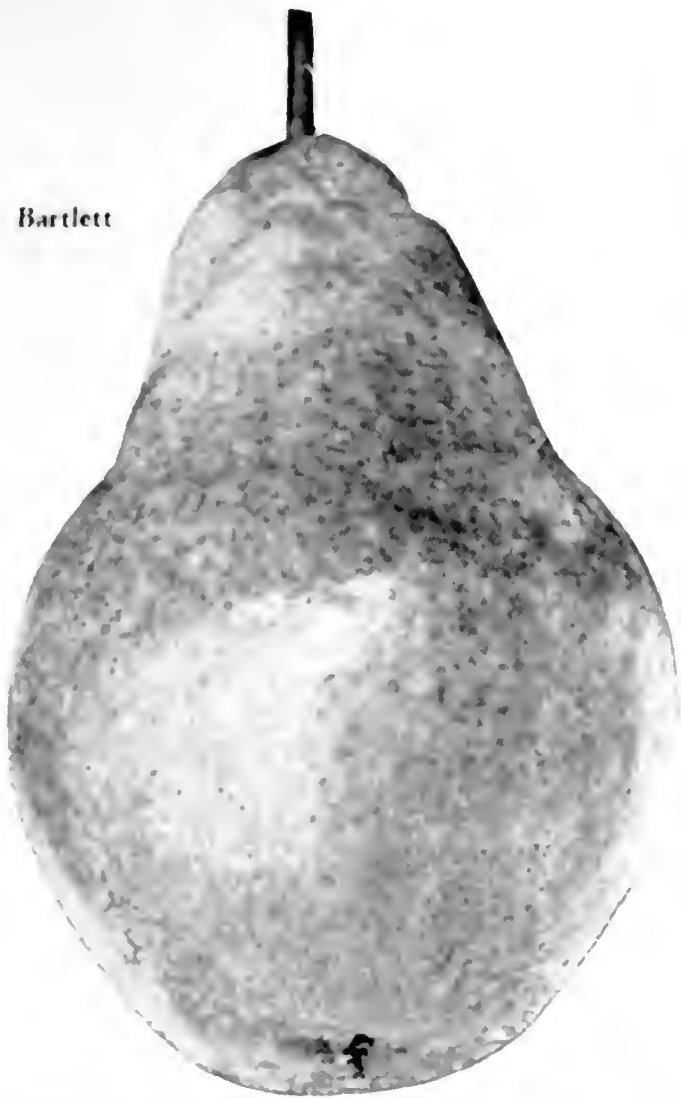

Yellow
Egg

PEAR TREES 40¢

PRICES: 2-yr., 3- to 5-ft. trees, each, 40c; 3, \$1.10; 10, \$3.00; 25, \$7.00. **EACH**

Bartlett

BARTLETT. Leading commercial and home use pear. Big producer. Fruit is golden colored, sometimes with red cheek. Flavor melting, rich and buttery. Good for any and every use. Ripens about first of September.

CLAPP'S FAVORITE. Ripens early August. Large pale yellow pear with red cheek. Tree hardy and vigorous and does well everywhere. Fruit fine grained, sweet, and highly flavored.

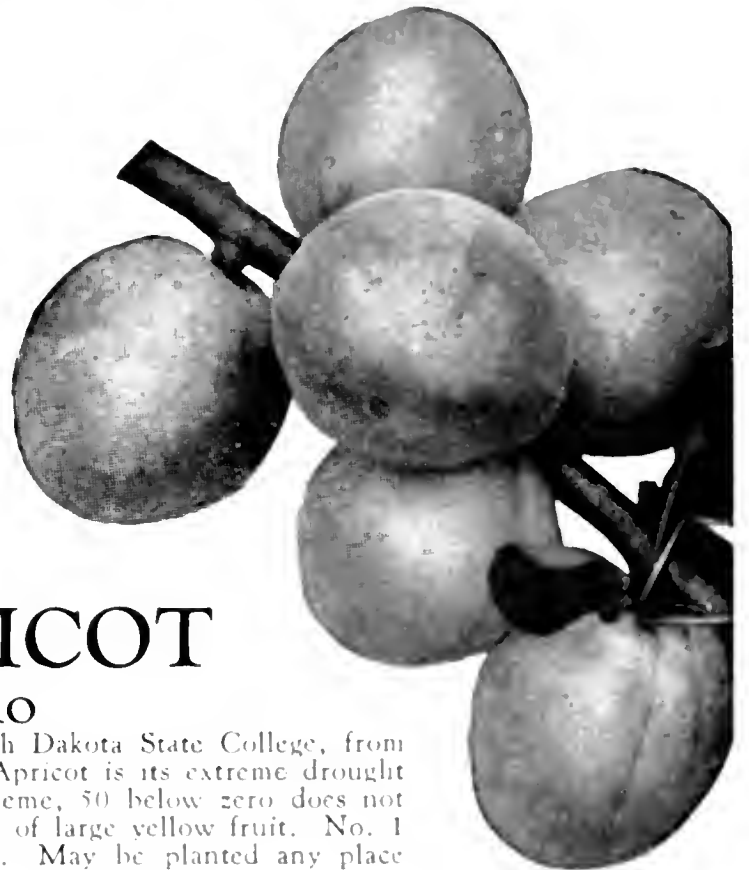

KIEFFER. Ripens in October and November. Large yellow pear noted for its keeping quality. Used extensively in commercial plantings because of its sure crop, heavy yield and shipping qualities. Tree very fast grower and bears young.

SECKEL. Commonly called "Sugar Pear". One of the richest and highest flavored pears known. Small size, yellowish russet, with red cheek. Flesh white, buttery, very juicy and melting. Always in demand for desserts and better known than any other pear in its class. Ripens September and October.

New Douglas Pear Bears in Two Years

This valuable new early-bearing pear is cold resistant and considered to be blight proof. Bears early, oftentimes same season planted and produces heavy crops. Fruit is large, smooth, yellow blushed. Flavor delicious, very sweet, melting and juicy. A regular cropper in all soils and localities. Something new and better!

PRICE: 2-yr., 3-5 ft. trees.
Each, 50c; 3 for \$1.40; 10 for \$4.50.

Hansen's HARDY APRICOT

WILL STAND 50 BELOW ZERO

This new Hardy Apricot was originated by Prof. Hansen, of South Dakota State College, from seed collected in East Siberia. Two outstanding points of this new Apricot is its extreme drought resistance and extreme hardiness. Heat and drouth or the other extreme, 50 below zero does not interfere with its vigorous growth and heavy crops. Bears heavy crop of large yellow fruit. No. 1 in size and quality. Cooks up into rich yellow, good quality sauce. May be planted any place in the United States.

PRICE, 4 to 6 ft. trees: Each, 55c; 3 for \$1.50; 10 for \$4.50.

TWO FINE NEW PLUMS

Both these valuable new plums originated in Minnesota and so are extremely hardy. They are especially adapted for planting here in our northern states and we recommend them highly.

SUPERIOR. One of the very best. This sensational new Plum was originated at the Minnesota Fruit Breeding Farm and is considered the most perfect of all fine Plums introduced by the station. Fruit very large, firm flesh, beautiful red color, and delicious quality. Can be peeled like a Peach.

FIEBING. A very large, high quality Plum originated by Charles Hatalson, former superintendent of the Minnesota State Fruit Breeding Farm. In addition to its large size and high quality, Fiebing ripens early, bears young, and has an attractive red color. The fruit hangs to the tree and is a good market Plum.

PRICES: 2-yr., 4 to 6 ft. trees.
Each, 60c; 3 for \$1.65; 10 for \$5.00.

Superior

Deutzia, Pride of Rochester

Hydrangea P. G.

Althea—Rose of Sharon

FLOWERING TO BEAUTIFY

Butterfly Bush

ALTHEA (Rose of Sharon). Beautiful upright growing shrub, blooming late in August and September with a profusion of large and brightly colored flowers. Attractive as a specimen or for hedges. Your choice of red or violet, both double flowering. **Strong, 2-yr., 18-24 in. bushes, each 25c; 3 for 65c; 12 for \$2.00.**

BARBERRY, Japanese. Rust-proof. Bright green foliage turning to a dazzling red in autumn, followed by red berries. Perfectly hardy, grows in all soils. Makes a low, dense, rounded bush 2 to 3 ft. tall that is ideal for border and foundation planting. **Strong, 2-yr., 15-18 in. specimen bushes, each 25c; 3 for 65c; 12 for \$2.00.**

RED BARBERRY. Exactly like Japanese Green Barberry, above, except that the foliage is a bright red from early spring until late fall. Makes beautiful border for tall growing green leaf shrubs. A sunny exposure is necessary to bring out its full red color. **Strong, 2-yr., 15-18 in. specimen bushes, each 35c; 3 for \$1.00; 12 for \$3.50.**

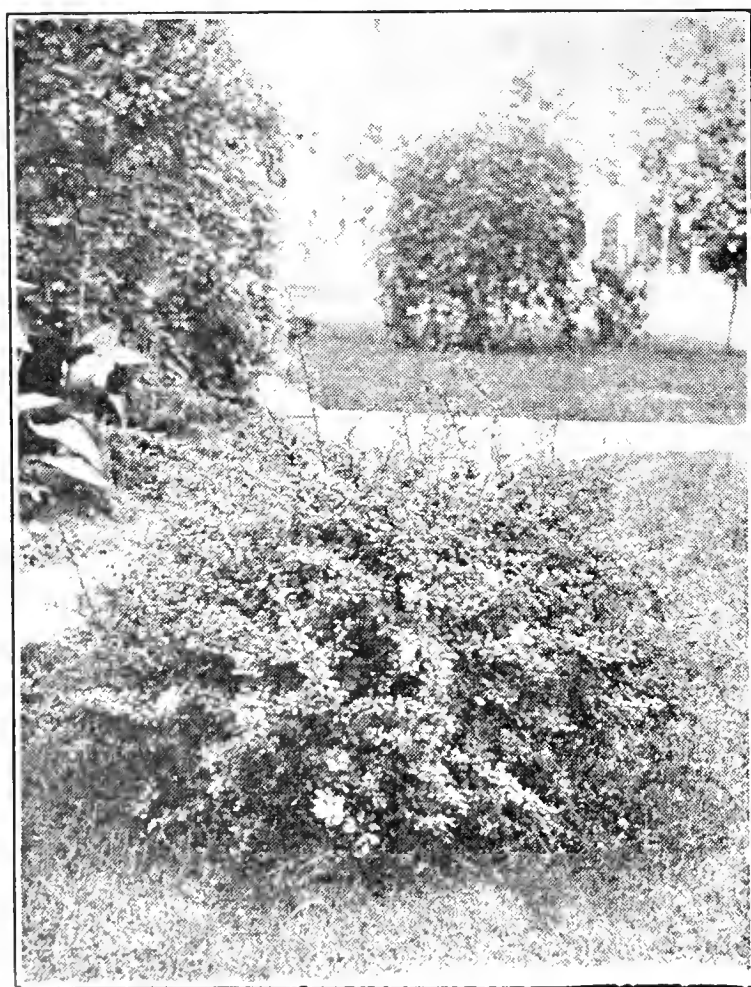

BUTTERFLY BUSH, Ile de France. A sensational new variety, of more uniform moderate growth, and greater brilliance of color in the bloom. Thick flower spikes 6 to 9 inches long, sweetly fragrant; rosy purple with a deep violet suffusion. Semi-perennial in habit. One of the best shrubs ever offered. **Heavy, 2-yr., No. 1 bushes, each 35c; 3 for \$1.00; 12 for \$3.50.**

DEUTZIA, Pride of Rochester. The lovely, large, white flowers, tinged with pink, are produced freely in May and June. Grows in sun or partial shade, and makes a beautiful, upright bush 6 to 8 ft. tall. The best of the Deutzias. **Strong, 2-yr., 18-24 in. bushes, each 25c; 3 for 65c; 12 for \$2.00.**

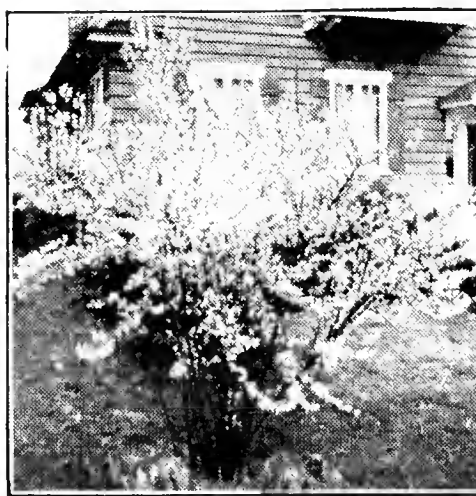

FORSYTHIA (Golden Bell). One of the finest shrubs Nature ever gave us. Branches are literally covered with golden, bell-shaped flowers in early spring before leaves appear. It is tall, growing to a height of 6 ft. and with drooping effect. **Strong, 2-yr., 18-24 in. bushes, each 25c; 3 for 65c; 12 for \$2.00.**

HONEYSUCKLE, Red Tartarian. One of the very best tall growing shrubs. In May and June it is covered with pink flowers, followed by many clusters of red and orange berries. Hardy everywhere and grows in sun or shade. Grows 8 to 12 ft. tall. **Heavy, 2-yr., 18-24 in. bushes, each 25c; 3 for 65c; 12 for \$2.00.**

HYDRANGEA ARBORESCENS (Hills of Snow). Magnificent, hardy shrub similar to old Snowball in flower, only larger. Large double snow-white flowers which remain for four or five weeks; large rounded leaves. Thrives in shaded locations. Grows 4 to 5 ft. tall and is extra good for porch or group planting. **Strong, 2-yr., 18-24 in. bushes, each 45c; 3 for \$1.20; 12 for \$4.00.**

Japanese Barberry

Forsythia—Golden Bell

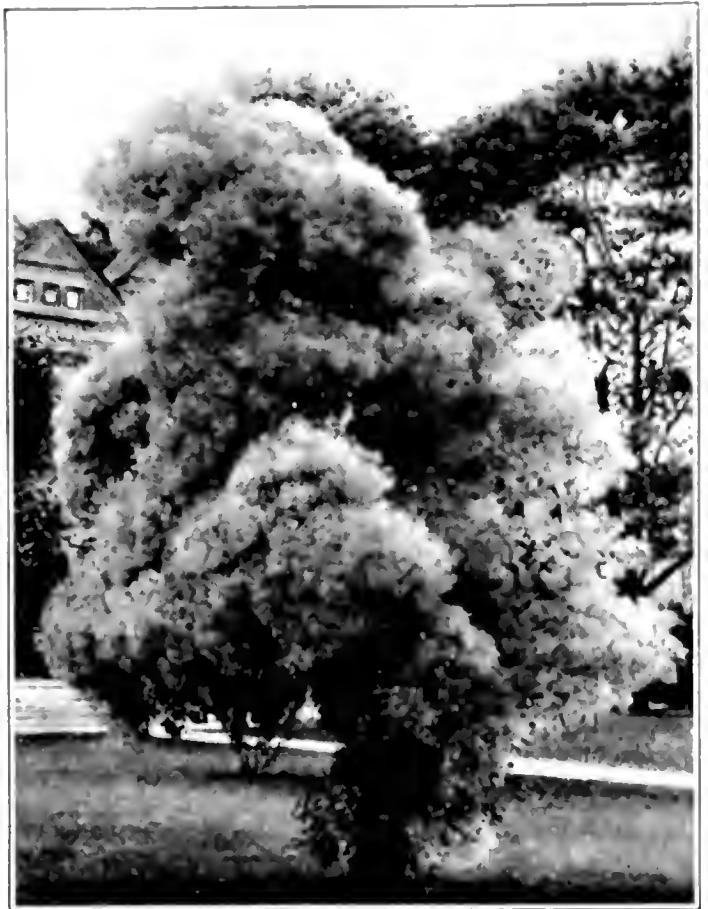

Pink Tartarian
Honeysuckle

Mock Orange

Weigela, Eva Rathke

Smoke Tree

SHRUBS YOUR HOME

HYDRANGEA PANICULATA GRANDIFLORA (Pee Gee)

Dainty creamy white florets cluster compactly to form giant oblong flower heads 6 to 9 inches in length. Loads of flowers to each shrub. Flowers turn rose colored in autumn and can be cut and dried for winter bouquets. Bush grows 6 to 8 ft. but may be pruned. Excellent for foundation and border plantings or for tall individual specimens. Strong, 2-yr., 18-24 in. bushes, each 45c; 3 for \$1.20; 12 for \$4.00.

PERSIAN LILAC. A shrub with slender arching branches, attaining a height of 5 to 10 ft. Foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the old common Lilac and does not sprout from the roots. Strong, 2-yr., 18-24 in. bushes, each 45c; 3 for \$1.20; 12 for \$4.00.

SMOKE TREE (Purple Fringe). Unique, spreading, tree like shrub with large leaves. Overhanging in midsummer by cloud-like masses of mist-like flowers having the appearance of smoke. Foliage changes to a brilliant red and yellow in autumn. Especially good as a single specimen on the lawn. Grows 10 to 12 ft. high. Heavy, 2-yr., 18-24 in. bushes, each 60c; 3 for \$1.50.

SPIREA, Anthony Waterer. A crimson flowered, dwarf variety, makes a low compact bush, never getting higher than 24 inches. Is used for low work in front of larger shrubs for border. Very attractive. Strong, 2-yr., 12-18 in. bushes, each 20c; 3 for 50c; 12 for \$1.75.

SPIREA, Van Houtte (Bridal Wreath). This is the most popular flowering shrub. The small white flowers are borne in clusters and the whole bush takes the appearance of a graceful white fountain during May and June. Most desirable for hedges, base planting and mass planting. Heavy, 2-yr., 18-24 in. bushes, each 15c; 3 for 40c; 12 for \$1.20; 100 for \$8.50.

SYRINGA, Virginal (Mock Orange). Flowers are very large, pure white, and highly fragrant. Blooms very profusely in June, with scattering flowers through the summer. Unquestionably one of the very finest white flowering shrubs. Grows everywhere and makes a bush 7 to 8 ft. high. Strong, 2-yr., 18-24 in. bushes, each 45c; 3 for \$1.20; 12 for \$4.00.

WEIGELIA, Eva Rathke. Very charming with its deep, carmine-red, bell-like flowers. When blooming in June, the bush is exceedingly showy. Low growing, only reaching a height of 4 to 5 ft. and spreading in habit. Ofttimes blossoms twice in one season. Heavy, 2-yr., 18-24 in. bushes, each 45c; 3 for \$1.20; 12 for \$4.00.

Persian Lilac

Golden Elder

Spiraea Anthony Waterer

Philadelphus, Virginal

JAPANESE BARBERRY

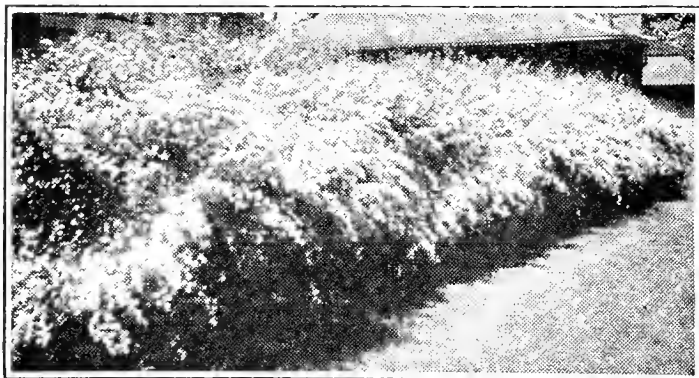

(Full description page 24)

One of the finest ornamental hedging plants in use, especially for low informal hedging and along sidewalks. It is dwarf growing, uniformly bushy and rounded in form, numerous leaves covering thorny twigs. Clusters of bright red berries cling to the branches far into the winter and add a cheery note to the winter landscape.

PRICES

Green Leaf, 2-yr., 12-18 in. plants, 12 for 85c; 25 for \$1.50; 50 for \$2.25; 100 for \$3.95.

Red Leaf, 2-yr., 12-15 in. plants, 12 for \$1.75; 25 for \$2.95; 50 for \$4.75; 100 for \$8.95.

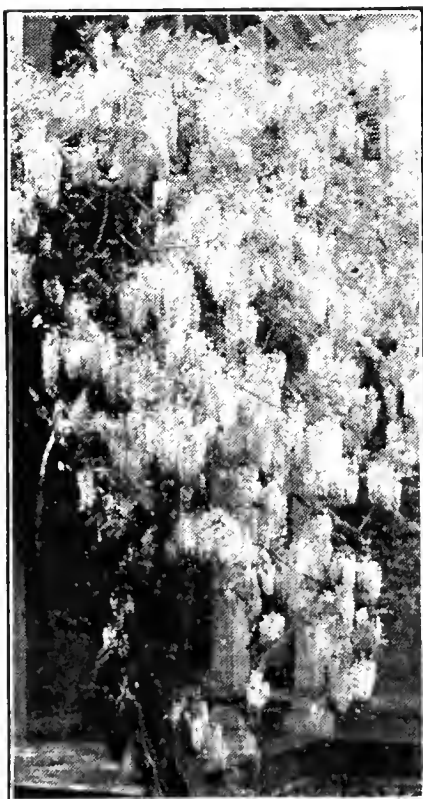

Spirea Van Houtte
(Bridal Wreath)

Climbing VINES

SILVER LACE VINE

Fastest growing vine. Completely covered with snowy white flowers from July to October. Glossy green, attractive foliage. Will give flowers and shade the first season as it grows 15 to 20 feet the first year. Unsurpassed for porch and arbor. **PRICES:** 2-yr., No. 1 vines, each 50c; 3 for \$1.25.

Wisteria

HEDGE PLANTS

AMOOR RIVER NORTH PRIVET

Of similar form and habit to the well known California type, but extremely hardy. Fine upright growth with lustrous dark green foliage, nearly evergreen. Grows quickly and succeeds in practically all soils. Makes very dense hedge. When planting cut back to 4 inches above ground to make hedge bushy at bottom. **PRICES,** 2-yr., 12-18 in. plants, 25 for \$1.65; 50 for \$2.50; 100 for \$4.50.

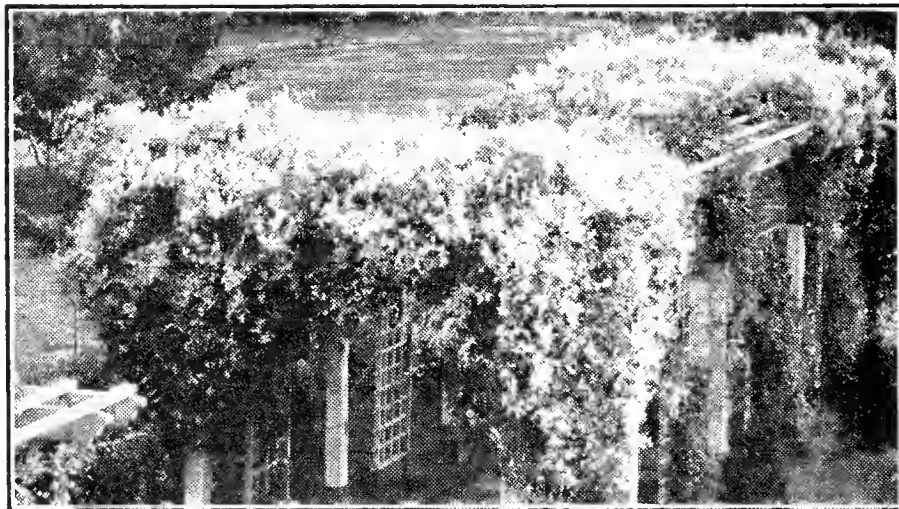

Japanese Barberry

SPIREA VAN HOUTTE

(BRIDAL WREATH)

This grand shrub has done more to beautify the homes of America than any other. It is by far the most popular and widely planted. A medium tall growing shrub that is especially valuable for hedging purposes where a screen is desired along back lot lines or about farm yards. A solid wall of white when in bloom and a most graceful, beautiful shrub when out of bloom. Grows in sun or partial shade and makes good everywhere. **PRICES:** 2-yr., 12-18 in. hedging, 12 for 95c; 25 for \$1.75; 50 for \$2.75; 100 for \$4.95.

Silver Lace Vine

EVERBLOOMING HONEYSUCKLE

Immense, showy clusters of trumpet-shaped flowers, bright red inside, bright yellow outside. Dark glossy foliage remaining green almost all winter. Blooms freely from May until frost. Grows vigorously in sun or partial shade. Fine for porch or fence. **PRICE:** 2-yr. No. 1 vines, each 60c; 3 for \$1.50.

BOSTON IVY

Dark green, three-lobed leaves; will cling perfectly to the smoothest surfaces. Changes to shades of yellow, orange and scarlet in autumn. **PRICE:** 2-yr., No. 1 vines, each 50c; 3 for \$1.25.

GIANT PURPLE WISTERIA

The most magnificent of all vines, becoming more beautiful each year. Lilac-purple flowers come in long clusters in June and July. Our plants are the true flowering type and will bloom the next year after planting. **PRICES:** 2-yr. No. 1 vines, each 35c; 3 for \$1.00.

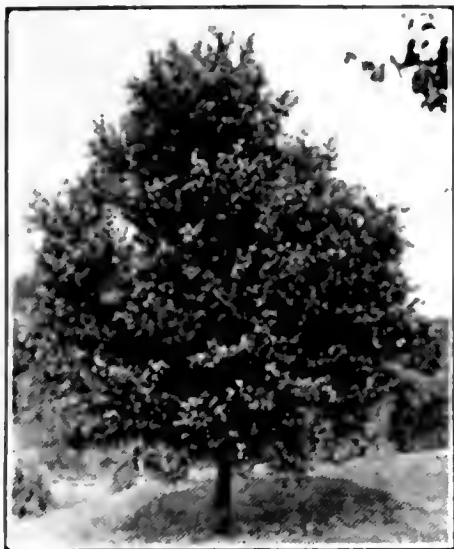

CLEMATIS JACKMANI

(Large-Flowering)

A gorgeous vine that produces its immense royal purple flowers (4 to 6 inches across) nearly all summer. One of the most decorative of all flowering vines. **PRICE:** 2-yr., No. 1 vines, each 75c; 3 for \$2.00.

Boston Ivy

Chinese Elm

CHINESE ELM

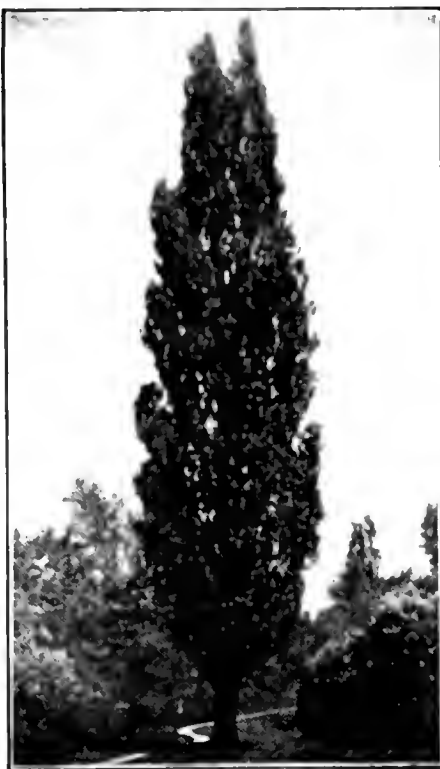

Because of its beauty and extremely rapid growth, the Chinese Elm has become the leading shade tree of America. It is planted in every state, standing intense cold and extreme heat equally well. Under ordinary conditions, it makes excellent shade in five short years, as its average growth is five feet a year. It is by far, the fastest growing hard wood shade tree. Small, dense foliage, well-rounded head and grows to a tall spreading tree. Our trees well developed, transplanted stock and not to be confused with the cheap seedlings oftentimes offered at lower prices. **PRICES:** 4 to 5 ft. trees, each 40c; 4 for \$1.40; 12 for \$3.60.

Golden Weeping Willow

LOMBARDY POPLAR

Everybody knows the striking appearance of this tall, narrow-growing tree, like a church spire. Fine for screens and background and for planting along drives and boundary lines. Also planted for windbreaks. Leaves are bright green with silvery appearance on under side. Grows rapidly on poorest soil. Natural columnar shape requires no trimming. **PRICES,** 5 to 6 ft. trees, each 40c; 4 for \$1.40; 12 for \$3.60.

Lombardy Poplar

GOLDEN WEEPING WILLOW

A glorious golden bark hardy willow. A large tree with long, drooping branches. Twigs and bark glisten with yellowish tinge. Leaves are long, slender, green above with silvery under surface. Branches sweep to the ground. Easy to grow even on poorest soil. Fine for parks, rock gardens, or along streams. Rapidly becoming the most planted variety of Willow. **PRICE:** 4 to 5 ft. trees, each 50c; 4 for \$1.75.

SPECIAL!

Lombardy Poplar in special lighter grade for use in screens and windbreaks. 3 to 4 ft. trees. 25 for \$2.95; 50 for \$5.45; 100 for \$9.95.

SPECIAL!

Chinese Elm in special lighter grade for hedges and windbreaks. 3 to 4 ft. trees. 25 for \$1.45; 50 for \$2.45; 100 for \$4.45.

Silver Maple

UMBRELLA CATALPA

Makes an umbrella-shaped top without pruning, forming a pretty, symmetrical, dome-shaped head of large, glossy, heart-shaped, deep green leaves. Very valuable for planting in pairs at sides of walk or doorstep. Also planted in rows along drives or lot lines. Adds a neat, formal effect. Never grows tall. Heads grafted atop a 5 to 6 foot trunk. **PRICE:** 5 to 6 ft. specimen trees, each \$1.25.

Umbrella Catalpa

SILVER MAPLE

A hardy, rapid growing, beautiful native tree attaining a large size. Valuable for producing a quick shade. Its leaves are good sized, rather deeply and irregularly indented, turning to bright yellow and bronze in the fall. It makes a broad, bulky tree, growing to a shading size quicker than any other variety of Maple. Trees well rooted, well branched, straight trunks; all fine, sturdy specimens. **PRICE:** 5 to 6 ft. trees, each 60c; 4 for \$2.20; 12 for \$6.00.

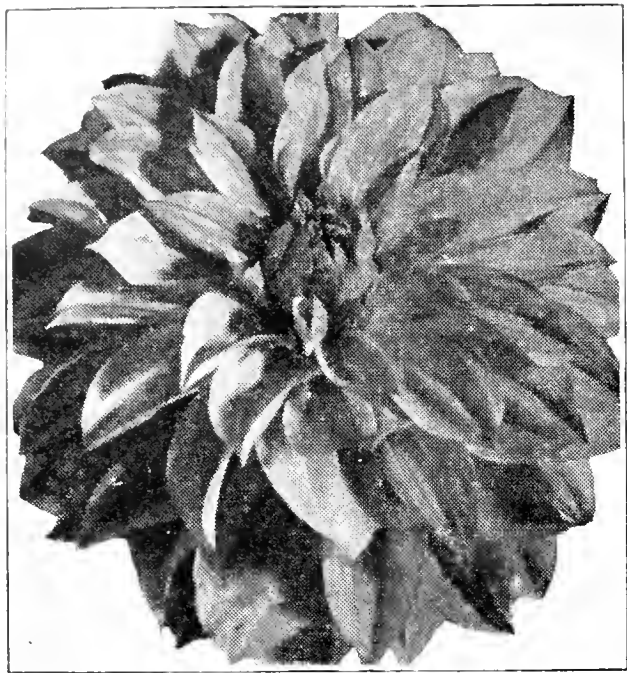

SHADE TREE BARGAIN

1 Golden Weeping Willow, 4-5 ft.
1 Silver Maple, 5-6 ft.
1 Chinese Elm, 4-5 ft. **\$1.19**
3 Heavy Trees for only ...

MIXED PEONIES

These Peonies, planted in April and May, will bloom this year. Plant with the eyes two inches below the level of the ground. Soon as growth starts keep cultivated - no special care required. These roots are strong 3- to 5-eye divisions, first class in every respect. Large, double-flowering type. Colors red, white, and pink not labeled. **PRICE:** Each, 25c; 3 for 60c; 12 for \$2.00.

Giant Decorative Dahlias

LARGE FLOWERING TYPE

AVALON. The finest canary-yellow; excellent for cutting.

JANE COWL. Glistening bronze-buff and salmon shades.

JEAN KERR. Pure white, fine cut flower.

JERSEY'S BEACON. Brilliant scarlet flowers; very desirable.

JERSEY'S BEAUTY. Very popular pink. Profuse bloomer.

MRS. I. DE VER WARNER. Orchid. Large and popular.

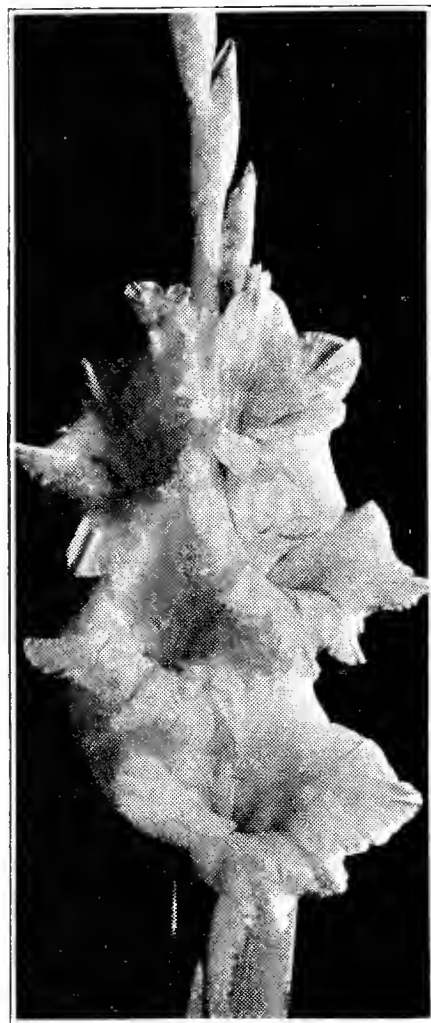

RAINBOW MIXED GLADIOLI

Our Rainbow Mixture is made up of dozens of the better large flowering varieties of Glads. All are large No. 1 size bulbs that will produce big, full-sized blooms the first summer and should not be compared with the so-called "blooming size" bulbs offered at cut rate prices.

Prices: No. 1 bulbs, 12 for 40c; 25 for 70c; 50 for \$1.25; 100 for \$2.00.

6 FOR \$1.00

One Each of These Six Leading Varieties

RED HOT POKER

Showiest of all garden plants when in bloom from July to October. Fiery, flaming scarlet flowers, the opened lower petals rimmed with orange, borne on stems 3 feet tall. Blooms from July to October. Mulch with straw or leaves for winter protection.

Price: Each, 25c; 5 for \$1.00.

INSTRUCTIONS TO PURCHASERS

ORDER EARLY. Make up your order and send it to us as soon as you receive this catalog. Early in the season we have a complete stock of all varieties and you will not be disappointed in getting just what you want. Early cash buyers will find our Cash Discounts most attractive and worth while. See page 3 of this catalog.

SHIPPING SEASON. We begin shipping the last of March or first of April, according to season, and continue until about May 15th. We do not advise our customers to order stock for shipment after this date. We can fill fall orders and make shipment soon as stock matures, which is around October 15th, depending on season.

TERMS. Cash with order. However, if you prefer, you may send a small down payment with your order and the balance any time before you wish shipment made. Orders amounting to \$5.00 or more, for shipment before May 1st, will be shipped C. O. D. provided 25 per cent of the amount is remitted with order. No orders will be booked or stock reserved unless part payment is made with order.

REMITTANCE. Always remit by personal check, express or post office money order, bank draft, or registered letter. Never send currency in letter without registering, as we cannot assume liability for currency lost in unregistered letters.

NOTE. Should the United States, or any state, increase by taxes, legislative acts, inflation, or in any other way beyond our control, the cost or selling price of nursery stock listed in this catalog, we reserve the right to add to our quoted prices to cover such increase.

EXPRESS SHIPMENTS. For most orders express is the safest, and, all things considered, the best way to have your nursery stock shipped. All express orders are shipped collect for transportation charges. All shipments of nursery stock by express now travel at second class rate, making charges about 25 per cent cheaper than formerly.

PARCEL POST SHIPMENTS. Many of our small orders are shipped by parcel post but we do not recommend it for any but very small orders, as it is much more expensive than express on large orders or for long distances. By referring to the table below you may determine the amount of money you must add to your order for postage. If postage is not included with your remittance we will assume that you wish us to ship C. O. D. for exact postage required.
